

LEISURE POOLS®
SWIMMING IN QUALITY AND STYLE®

FACT SHEET

The Horizon™

Welcome to the dawn of a new era in swimming pools. The Horizon™ is unlike any other composite pool being produced in the world today.

The pool features a stunning infinity-edge, causing water to seemingly disappear into the horizon. Whether it is a beautiful panoramic view or your own backyard creation, The Horizon™ allows water, earth and nature to combine.

The Horizon™ will fit perfectly on awkward sloping sites or into a deck where you thought a pool was just not possible. The flatbottom floor is ideal whether you are looking to take a relaxing dip or play games with your friends and family. This ingeniously created swimming pool incorporates patent pending design and innovation technologies to encapsulate the transition from in-ground to out-of-ground.

The Horizon™ features a recirculating water system in which water flows over the infinity edge, then cascades into its own built-in reservoir before being returned to the pool. A fullwidth bench provides seating in the water, where optional spa jets can be added to enhance your experience.

Optional storage compartments can be added to the pool to conveniently house its filtration equipment out of sight. The compartments not only protect your equipment, but also facilitates the pumps and filters to operate more efficiently due to closer proximity to the pool. The compartments double as lounge seats for relaxing in the sun without having to be in the water.

LENGTH	WIDTH	SHALLOW END DEPTH	DEEP END DEPTH
23'	15' 9"	4'	4'

*Length does not include optional storage pod
